Dear Resident/Landowner

RE: Victoria Trail Bridge - construction and road closure update

Sturgeon County is writing to inform you about the Victoria Trail Bridge Replacement Project (Bridge File 00839). Construction is scheduled to begin on or around February 9, 2026. As part of this work, a full road closure of Victoria Trail within the project limits is expected to begin February 10, 2026. The road should reopen around May 12, 2026, weather permitting.

The project will include the removal of the existing bridge, adding a new three-span bridge, and associated roadway improvements. In addition, the County will be working on a historical marker to acknowledge the heritage of Victoria Trail. It will be placed once the bridge construction is done.

What this means to you

Construction will usually be done during the day, five days a week, with some work on the weekends, if needed. Area residents can expect to see county staff, consultants, surveyors, construction crews, and equipment during the project. Residents may notice higher noise levels, especially during the pile-driving part of construction.

A temporary, local road detour will be in place during construction. The detour road will be inspected twice daily, with weekly maintenance. Residents will always have access to their properties throughout the project.

Stay in touch

If any issues arise with the detour, or if you have any questions or concerns during construction, please do not hesitate to contact Mark Guerette, Infrastructure Projects Officer at mguerette@sturgeoncounty.ca or by calling 780-939-1234.

To stay up to date on all our projects, please visit the road construction project pages on our website at www.sturgeoncounty.ca/Roads. We encourage you to sign up to follow this construction project, as well as any others that may be of interest, and receive weekly progress email updates.

Thank you for your patience and cooperation as this important infrastructure improvement is completed.

Sincerely,

Maximus Adu-Safo
Director, Transportation & Engineering Services
Sturgeon County
