Hand Delivered

Dear Resident / Property Owner:

Re: Construction of Township Road 554 & Hwy 2 and Cardiff Road Interchange

We are writing to inform you of two upcoming infrastructure projects that will be taking place along Township Road 554. One project is being led by Sturgeon County and involves road reconstruction, while the second is a provincial initiative for the construction of a new interchange at Highway 2 and Cardiff Road.

Sturgeon County will be reconstructing a 3.2-kilometre segment of Township Road 554 this summer. The section extends from the Highway 2 right-of-way to west of Range Road 255. The scope of work includes roadway grading, installation of a granular base structure, asphalt paving, reconstruction of approaches, and reshaping of ditches, side slopes, and backslopes to meet applicable rural highway standards. The project also involves drainage improvements through the installation of new centreline and approach culverts.

Alberta Transportation and Economic Corridors (ATEC) recently informed the County that construction of the long-awaited interchange at Highway 2 and Cardiff Road will proceed, with completion expected within the next two years. The interchange footprint will affect the eastern project limits of Township Road 554, requiring a westward shift of approximately 700–800 metres. The County is coordinating with ATEC on the revised project boundaries and will be extending the western project limits by the same amount. The design and other engineering aspects are being updated accordingly.

What this means to you

A single lane of traffic will remain open while the work is in progress. Please follow posted traffic signs and travel safely through the area. The work, which will be done by a contractor, is weather dependent and is scheduled to start mid-May and be done by the end of summer 2025.

Staying in touch

If you have any questions, or concerns about this project, please contact Khalil Shaikh at (780) 939-0618 or email kshaikh@sturgeoncounty.ca

To stay up to date on all our projects, please visit the road construction project pages on our website at www.sturgeoncounty.ca/Roads. We encourage you to sign up to follow this construction project, as well as any others that may be of interest, and receive weekly progress email updates.

We appreciate your patience as we work to enhance Sturgeon County's infrastructure.

Sincerely,

AS

Maximus Adu-Safo,
Director, Transportation & Engineering Services
Sturgeon County
